GLENGOWAN ANGUS Elite Female Sale

100 Herdbook Registered
cows and heifers
March 2025

GLENGOWAN ANGUS

WELCOME

We are pleased to welcome everyone to the 2024 Glengowan sale. The past couple of post-Covid years have been busy for Glengowan Angus. We have continued to concentrate on re-evaluating and refining our business model and restructuring our cattle enterprise to include an expansion of the commercial herd and an F1 Wagyu herd. We have also invested heavily in our stud breeding program by introducing several prominent new sires. These sires were carefully selected to add to the herd without compromising our multi-generational building blocks of depth, fertility and temperament.

Glengowan is first and foremost a family owned and managed business and has been since 1858. The breeding aims for our herd have remained consistent for several generations and our primary focus remains on balance, integrity and the commercial performance of our cattle. We have always avoided extreme traits which have led to much of the great variance in quality we now see in Angus cattle. We have opted instead for a more rigorous, considered approach by concentrating on the true attributes of the Angus breed. For almost 70 years Glengowan cows and their progeny have been carefully appraised and selected for ease of calving, fertility, longevity, good structure and quiet temperaments, with the result that our bloodlines are proven to perform in tough environments and still produce top weaners.

The bulls being offered this year are the result of exceptionally strong, proven bloodlines combined with some outstanding new genetics. The bulls are packed with performance and phenotype and they are a consistent group of strong, commercially focused all-rounders. They show depth, bone, volume and soundness. They are well fleshed and adhere to our breeding principals of producing moderately framed cattle with good structure, meat, temperament and type. The group overall have a good balance of EBVs and they offer access to some very solid genetics from several sires, including Millah Murrah Loch Up P121, Millah Murrah Paratrooper P15 and Woodhill Patent 19199070. As always, the sale bulls have been semen tested and individually assessed by the vets from the Blayney Veterinary Hospital and are fit and ready to work. Please contact us to view the cattle prior to the sale.

The strength of the Glengowan herd lies in our maternal power and performance and our females are still based primarily on NZ genetics, famous for their stamina and softness. As part of our future planning, we have decided to offer over 100 of our herdbook registered females at an elite female sale at Glengowan in March 2025. This sale represents a unique opportunity to secure almost 70 years of continuous stud breeding and rock- solid genetics from the very heart of the Glengowan herd. Further details will be available on our website soon.

We look forward to seeing you at Glengowan on THURSDAY 12 SEPTEMBER. Inspections will commence at 10 am. A complimentary morning tea, BBQ lunch and afternoon tea will be available at the sale complex.

AGENT REBATES

A rebate of 5% is offered to outside agents who attend the sale and who purchase on behalf of their clients, providing they introduce buyers prior to the sale in writing and settle on their behalf within 7 days.

A 2% rebate applies to all agents who introduce clients but do not accompany them to the sale providing they introduce buyers prior to the sale in writing and settle on their behalf within 7 days.

SALE INFORMATION

INSPECTION TIMES

The Glengowan Angus sale will be held at Glengowan, Moorilda on Thursday 12 September 2024. The sale complex is heated, undercover and is located on the Barry- Newbridge Road, 15 km from Blayney. Cattle may be inspected on sale day from 10.00am-12.30pm or prior to the sale by appointment. Selling will commence at 1pm. A supplementary sheet of weights and information will be available on sale day. Morning tea, a BBQ lunch and afternoon drinks will be provided.

IDENTIFICATION

Bulls are identified with NLIS tags, lot numbers and freeze brands which include their Angus Australia identification and the Glengowan registered brand of a G in a square over a bar. The Glengowan PIC is ND111541. Currently bulls T17 and T59 are registered as APR. All other sale bulls are Herdbook Registered (HBR) with Angus Australia. All bulls have been DNA tested and are sire or parent verified.

SAFETY RULES & RECOMMENDATIONS

We are confident all the bulls offered for sale are quiet and of sound temperament, however sale day brings a completely new set of conditions, and the bulls will be subjected to unusual levels of noise and pressure with many people invading their space. Even the quietest bull can become upset under these circumstances, and this is not the time to 'front' or attempt to intimidate the bulls. Please leave the pens in a timely manner, remain alert to the animals around you and do not overcrowd the area at any time. **CHILDREN ARE NOT PERMITTED TO ENTER PENS** and must be supervised by a parent at all times. Visitors at any time enter 'Glengowan', the pens and the sale complex at their own risk.

SELLING CONDITIONS

All lots will be sold subject to the usual conditions governing auction sales which will be displayed on the day. The auction price is exclusive of GST. All bulls sell with 100% semen rights to the purchaser. Glengowan reserves the right to collect up to 200 straws of any sale animal for use within our herd. Collection will be at the vendor's expense by arrangement with the purchaser.

REBATE

A rebate of 5% is offered to outside agents who attend the sale and who purchase on behalf of their clients providing they introduce buyers prior to the sale in writing and settle on their behalf within 7 days. A 2% rebate applies to all agents who introduce clients but do not accompany them to the sale providing they introduce buyers prior to the sale in writing and settle on their behalf within 7 days.

BUYER REGISTRATION

A buyer registration system will apply. Please register with the selling agent well before the auction.

PHONE BIDDING

There is limited mobile phone coverage in our area and reception at the selling complex is patchy at best so please make arrangements with the agents to arrange phone bidding prior to the sale.

ON-LINE BIDDING

Videos of the bulls will be available on Auctions Plus and the sale will be interfaced with Auctions Plus on the day. See page 5 for instructions.

HEALTH AND FEEDING

The Glengowan herd is consistently monitored for general health and temperament. Any animals not meeting our standards are removed from the herd. An intensive drenching and vaccination program is used at Glengowan and care and health of the animals is a top priority. All sale bulls were drenched with Cydectin Plus and vaccinated with 7 in 1 on 8 August 2024. The bulls have been grazed on pasture and oats and have also received some supplementary feeding during the coldest months only.

INDEPENDENT ASSESSMENT

All bulls have passed a strict breeding soundness evaluation conducted by vets from the Blayney Veterinary Hospital in July 2024. They were assessed for general structural soundness including assessment and palpitation of their sexual anatomy and were semen tested. Each bull has a Bull Breeding Soundness Evaluation (VBBSE) certificate which will be on display on sale day with copies available on request. All have blood tested negative for pestivirus.

GENETIC TESTING

NH, AM, CA and DD are recessive defects, and a DNA test has been developed to identify carriers. Carriers are identified as with a C after the initials. We believe that by definition carrier animal is genetically inferior and that they should not be sold by breeders. Glengowan bulls are either tested or pedigree free of all known defects.

FREE DELIVERY

Glengowan Angus will provide free delivery within 200 kms of Glengowan and also to Dubbo, Cowra and Lithgow saleyards. Buyers will be advised of delivery times. Extra distance is available to volume buyers.

YOUR NEW BULL

Immediately after the sale, please fill out the buyer's instruction sheet which includes delivery instructions. The vendors will register ownership transfers with the Angus Society of Australia if details are provided to us. Please advise transfer details including your membership name and herd identity number. Non-members are requested to provide the name and address to which the animals are to be transferred. We strongly recommend that you insure your bull immediately after purchase.

Your bull is ready, willing and able to go to work and is already familiar with people on foot, tractors, vehicles and motorbikes. He will easily adapt to most other farm vehicles and animals including horses and working dogs if they are introduced slowly. When you take your new bull home remember he is used to the security of a large mob and will find being alone a new experience which he may take time to settle into. Please DO NOT put him with other bulls. If you can't put your bull in a new mob straight away, try and have a few steers or pregnant cows in the yards as companions. We also recommend that bulls are alternated during the joining period to safeguard against any unknown injury or illness which may affect their fertility. Please do not hesitate to contact us for further advice regarding your new bull.

GUARANTEE

The sale bulls are guaranteed for two years from the date of sale for structural soundness, fertility and capability of service. If a purchaser claims any bull is unsound, infertile or incapable of service Glengowan Angus will replace the bull with a satisfactory substitute if available or issue a credit on a pro-rata value of the bull (less the salvage value) which can be used at a later Glengowan sale. The guarantee covers only the purchase value of the bull and does not apply if the bull contracts an illness after leaving Glengowan, is injured, treated negligently or without consideration for the information regarding new bulls above. A veterinary certificate must be supplied by the purchaser stating that the bull is incapable or infertile and that in the vet's opinion no injury or illness has been suffered by the bull which may have affected his fertility. Any complaint must be lodged within 23 months of the sale. Glengowan Angus is not liable for any damage or loss incurred by the purchaser as a result of the purchase of the bull. This guarantee is in addition to the usual terms and conditions governing auction sales.

DIRECTIONS

From Blayney- take the Newbridge Road at the Post Office and keep right for 15 km. Don't go to Newbridge. You will pass a small sign 'Moorilda' proceed about 500 m then go right to Barry. The Glengowan sale complex entrance is at the top of the hill.

Glengowan is 35 minutes' drive from Bathurst, 1 hr, 15 minutes from Oberon, 2 hours from Mudgee and 2 hrs 20 minutes from Goulburn.

Please bring this catalogue to the sale.

AuctionsPlus

How to Register and Bid on AuctionsPlus

1

Go to www.auctionsplus.com.au to register at least 48 hours before the sale.

2

Select “**Sign Up**” in the top right hand corner.

3

Fill out your name, mobile number, email address and create a password.

4

Go to your emails and confirm the account.

5

Return to AuctionsPlus and log in.

6

Select “**Dashboard**” and then select “**Request Approval to Buy**”.

7

Fill in buyer details and once completed go back to Dashboard.

8

Complete buyer induction module (approx. 30 minutes).

9

AuctionsPlus will email you to let you know that your account has been approved.

10

Log in on sale day and connect to auction.

11

Bid using the two-step process – unlock the bid button and bid at that price.

12

If you are successful, the selling agent will contact you post sale to organise delivery and payment.

ABOUT THE VBBSE (VETERINARY BULL BREEDING SOUNDNESS EVALUATION)

The BULLCHECK™ Accreditation Scheme Veterinary Bull Breeding Soundness Evaluation uses prescribed assessments and summarises the result into five fertility components. If a bull meets all the minimum standards at all levels of the BULLCHECK™ it has a high probability of being fertile.

In common law, a bull sold as a breeding bull should be able to breed (Supreme Court of NSW, Decision), so it is very important that as many as possible of the components of fertility are met in the BULLCHECK™. A pass on BULLCHECK™ is not an express guarantee, but rather an indication of the potential breeding value of the bull in a normal mating situation.

A full BULLCHECK™ of an animal includes identification, history (including vaccinations) plus five key components, namely:

A general physical examination including structure (conformation) and upper reproductive tract

An examination of the testes and measurement of scrotal size

A serving assessment to evaluate libido and mating ability

Collection and assessment of a semen sample

Laboratory examination of sperm morphology.

For further information see

<https://www.ava.com.au/about-us/ava-groups/cattle/resources/schemes/bullcheck/>

The Glengowan sale bulls were assessed by The Blayney Veterinary Hospital on 17 July 2024. VBBSE Certificates will be available for viewing on sale day or prior on request.

UNDERSTANDING SCROTAL SIZE and FERTILITY

The scrotal circumference of a bull provides an important indication of his genetic merit for several important fertility traits. Increased scrotal circumference is associated with earlier age at puberty, increased semen production and improved semen quality. There is also evidence that increased scrotal circumference is associated with improved female fertility and earlier age at puberty in a bull's daughters.

For further information see <https://breedplan.une.edu.au/understanding-ebvs/understanding-scrotal-size-ebvs/>

The 2024 Glengowan sale bulls have scrotal circumference measurements between 41 and 47 cm.

Paratrooper sold for \$160,000 at the Millah Murrah sale in 2019. We were impressed by both his phenotype and presence on the day and considered that his pedigree, which features renowned NZ bulls such as Highlander of Stern and Crusader of Stern to be a perfect fit for our program. We have been rewarded with some beautiful females and powerful bulls who will feature in our 2024 and 2025 sales.

Woodhill Patent was introduced into our program for his exceptional depth and structure. Not always seen in American bulls, Patent is moderate in size but with the thickness and volume we look for. He has very strong maternal lines and powerful calving ease figures. He has produced some excellent sons who will offer outstanding heifer bull prospects in our 2024 sale.

We purchased this Loch Up son at the 2020 Millah Murrah sale. We were attracted to him for his larger frame, length and muscle as well as his strong extended pedigree which includes our own Brenda line. Several Loch Up bulls will be offered at our 2024 sale.

HEALTH & SAFETY

We, the owners of Glengowan Angus are committed to ensuring the health and safety of our officers, employees, contractors and visitors to our property. In November 2017 we undertook a voluntary Advisory Inspection by Worksafe NSW. We wish to advise that all efforts have been made to provide a safe working environment and safety systems however people entering “Glengowan” should be aware that hazards exist which include, but are not limited to, quad bikes, livestock movements, electric fences, trees and vehicles. People entering the property for any reason whatsoever including cattle sales or inspections should be aware of these hazards and enter at their own risk. We (the owners, employees and agents) are not liable for any personal injury or death suffered by you or for any theft, loss or damage to any property caused or contributed to by us or any other person.

SALE CATALOGUE DISCLAIMER

Whilst every effort is made to ensure the accuracy of the information contained in this catalogue at the time of printing Glengowan Angus, its officers, employees and agents assume no responsibility for the accuracy or completeness of the information, or opinions contained in the catalogue nor for the outcome (including consequential loss) of any action taken based on the information in this catalogue. Information including but not limited to pedigree, DNA information, Estimated Breeding Values (EBVs) and Index values, is based on data supplied by a third party; Angus Australia.

INSURANCE

We strongly recommend that all bulls are insured by the purchaser as the bull becomes their responsibility at the fall of the hammer.

PRIVACY INFORMATION

The animals included in this catalogue are registered with Angus Australia. In order for Angus Australia to process the transfer of a registered animal in this catalogue, the vendor will need to provide certain information to Angus Australia and the buyer consents to the collection and disclosure of that information by Angus Australia in certain circumstances. If the buyer does not wish for his or her information to be stored and disclosed by Angus Australia, the buyer must complete the form included below and forward it to Angus Australia. If the form is not completed, the buyer will be taken to have consented to the disclosure of such information.

BUYER'S OPTION TO OPT OUT OF DISCLOSING PERSONAL INFORMATION TO ANGUS AUSTRALIA

If you do not complete this form, you will be taken to have consented to Angus Australia using your name, address and phone number for the purposes of effecting a change of registration of the animal(s) that you have purchased, maintaining its databases and disclosing that information to its members on its website.

I, the buyer of animals with the following registration numbers
.....
from member (name) do not consent to Angus Australia using my name, address and phone number for the purposes of effecting a change of registration of the following animal(s) that I have purchased, maintaining its databases and disclosing that information to its members on its website.

Signature: Date:

Please forward this completed consent form to Angus Australia, Glen Innes Road, Locked Bag 11, Armidale NSW 2350. If you have any queries, please telephone 02 6772 3011 or e-mail office@angusaustralia.com.au.
